

Contribution to 4D Woolston Wastewater Redevelopment

Dear Tony,

Congratulations on receiving the December award, recognising you and your team supervisors' contributions to the 4D Woolston Wastewater Redevelopment project. This is an award that is chosen by our Client and the site management team, and is awarded to those whom they believe should be recognised for their contribution to the project's success during the month.

Various nominations said that you and your supervisors Jas Heer and Darren Branscombe all deserve recognition, as you are managing one of our largest suppliers on site with easily the biggest work force. You continue to meet our programme dates and ensure your team always leave areas safe and tidy whilst working on this challenging project. You are the only supplier on site who is required to interact with all our other suppliers and have done so with little or no conflict. You consistently demonstrate that you make the safe operation of the project and safety of the people you work with your priority.

Your hard work and excellent performance has been noted and appreciated; your diligence, responsible attitude and alignment with the project's values all contribute to creating better working relationships, making you all an asset to this project.

As you received most nominations it gives me great pleasure to present you, Jas and Darren each with an award of a £50 gift card of your choice from a selection of shops and outlets.

This letter brings you my own warmest congratulations; it speaks highly about how well you, your team, and your work are perceived in the project. It is a positive contribution that deserves our recognition and I am proud to say that you are all valued members of our delivery team.

Please let me know if you have questions or need additional information.

Warm regards,

Chris Roberts

Project Director, 4Delivery Woolston.
